

Medical tourism in Croatia

www.CroMedicalNetwork.com

TRAVEL IN CROATIA WITH CroMEDICAL NETWORK!

While the main objective of your trip is getting medical treatment, by choosing Croatia as your destination, you have also chosen the tourist experience that this country provides.

Travel agency **CroMedical Network** is a common tourist/travel agency in its nature, but on the other hand it is a highly specialized project focused on health and medical tourism. Our main advantage over other agencies is that we gather professionals in medicine and tourism with interdisciplinary approach in dealing with your needs.

Our service include:

- **Start – to – finish** customer support through our Call Centre and our team of professionals
- Preliminary travel planning for your trip
- Medical service of highest quality
- Transfer services (airport – hotel – medical centres)
- Hotel reservation
- Personalized client support during the entire stay
- Other services including aftercare

- Dental program

The medical tourism sector is growing exponentially in Croatia and is a successful formula for treatment at a great price, while on holiday.

What does Croatia offer on a purely health related front?

“Quality, versatility and professionalism.

Our doctors are highly specialised, many have had experience abroad, they are members of prestigious international medical associations and their professionalism is based on continual training and keeping up to date.

Private medical institutions and hospitals in Croatia are equipped with the latest diagnostic technology and surgical equipment.

Recently, many people from other countries have chosen Croatia for *dental, aesthetic and sports medicine* or for *orthopaedic surgeries and rehabilitation* attracted by the great value for money treatment.

However, this is not the only advantage: thanks to the world of mouth, the word was spread that Croatian health care has become a synonym for excellence in all areas.

I must stress some facts: our country is increasingly perceived as a tourist destination that everyone can afford, able to combine beautiful, welcoming tourist areas with top quality medical care. Here you can experience unique emotions, find pleasure in comfort hotels and apartments and get carefully personalised patient service. Our patients can return home healthier and full of unforgettable memories.

Miljenko Bura, MD, PhD

Otorhinolaryngologist

Head and neck plastic surgeon

Member of American Association of

Endocrine Surgeons

Member of European Head and Neck Society
